## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Timothy Trop on March 14, 2007.

The application has been amended as follows:

Claim 9, line 1, after "instructions", delete "that, if".

Claim 9, line 2, replace ", enable", with "by".

Claim 17, line 3, after "instructions", delete "that, if".

Claim 17, line 4, replace ", enable", with "by".

Claim 20, line 1, replace "article" with "system".

2. The following is an examiner's statement of reasons for allowance: The claims detail each application defining an address space of a shared memory specific to each application and duplicating member data for a shared class for each application in the address space of the shared memory specific to each application. The majority of the prior art of record have been overcame by the affidavit filed February 20, 2007. The newly cited references disclose sharing a program / object between processors /

processes. However, the sharing does not duplicate the member data for the class for each application in the address space of the shared memory specific to each application. In some of the references, the private memory area for each application is not from shared memory for all the applications. Therefore, the claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
